

**TROPICAL CYCLONE BULLETIN NO. 12F**  
**Low Pressure Area (formerly ROSAL (PAKHAR))**  
 Issued at 5:00 AM, 13 December 2022

<b>“ROSAL” TRANSITIONS INTO A POST-TROPICAL LOW</b>	
<p><b>Location of Center (4:00 AM):</b>            The center of Low Pressure Area (formerly ROSAL) was estimated based on all available data at <b>1,020 km East of Extreme Northern Luzon (19.5°N, 131.2°E)</b></p>	
<p><b>Intensity:</b>            Central pressure of <b>1004 hPa</b></p>	
<p><b>Present Movement:</b>  <b>Southeastward at 10 km/h</b></p>	

<b>TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT</b>
No Tropical Cyclone Wind Signals hoisted at this time.

<b>HAZARDS AFFECTING LAND AREAS</b>
The post-tropical low is too far to directly affect the weather condition in the country.
<b>HAZARDS AFFECTING COASTAL WATERS</b>
Although no longer enhanced by the post-tropical low, under the influence of the surge of the Northeast Monsoon, a <b>marine gale warning</b> is in effect over the seaboard of Northern Luzon and the eastern seaboard of Central Luzon. For more information, refer to Gale Warning #29 issued at 5:00 AM today. Furthermore, <b>moderate to rough seas</b> over the eastern seaboard of Southern Luzon (1.2 to 4.0 m) and Visayas (1.2 to 3.0 m). These conditions may be <b>risky for those using small seacrafts</b> . Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.
<b>TRACK AND INTENSITY OUTLOOK</b>
This post-tropical low is forecast to dissipate within 24 hours due to the unfavorable conditions brought about by the surge of the Northeast Monsoon.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-transition occurs, this is the final tropical cyclone bulletin. Succeeding updates will be provided in the 24-Hour Public Weather Forecast to be issued at 4:00 PM today.
